CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student seeking opportunities to apply technical knowledge, enhance practical skills, and build a successful career in the engineering field.

EDUCATION

BE – Electronics and Communication Engineering (ECE)

Dhaanish Ahmed College of Engineering • 3rd Year (Pursuing)

TECHNICAL SKILLS

- **Programming Languages:** Java, Python
- **Core Domain Concepts:** Basic Electronics, IoT Systems, Cloud Integration, Automation

INTERNSHIP EXPERIENCE

Blastout Solutions — *Intern*

- Gained practical knowledge on basics of Python programming language.

PROJECTS

Micro Grid Solar Energy Monitor

- Developed an IoT-based solar energy monitoring system using an ESP32 microcontroller.
- Integrated cloud technology for remote monitoring and real-time data visualization.
- Improved energy efficiency through real-time fault detection and continuous system tracking.

INDUSTRIAL VISITS

- **Automobile Industry:** Visited a manufacturing facility and gained insights into electrical systems and production processes.
- **EV Industry:** Visited an electric vehicle industry and gained exposure to EV components and charging infrastructure.

KEY STRENGTHS

Quick Learner • Effective Communication • Team Player • Adaptable and Responsible
